

Greater Omaha. There is something to be said when you know exactly where the steaks and burgers on a menu come from. I am very proud to say I know where all the beef served at The Old Mill Restaurant comes from and I personally know exactly how long each cut has been aged which lends itself to the full flavor and tenderness. Hand cut and never frozen. I hope you enjoy your steak or burger as much as I enjoy making this menu my passion and profession - Dave Forland
